## **MEDTECH STRENGTHENS ITS MANAGEMENT TEAM WITH THE ARRIVAL OF ITS CFO, CHRISTOPHE SIBILLIN**

Montpellier, France, January 15, 2014 –MEDTECH (FR0010892950) is strengthening its management team by welcoming Christophe Sibillin as its new CFO.

Forty-seven year-old Christophe has over 20 years of experience in various financial positions in the fields of medical imaging, software and electronic components on the French and International markets.

More recently, Christophe Sibillin held the position of Director of Administration and Finance at Supersonic Imagine, a startup company created in 2005 developing and marketing a new generation of ultrasound scanners. In 2008 he joined Supersonic Imagine which was then making an annual 300 K€ and participated in its development until 2013 when it made 14 M€.

He was in charge of the Group's statutory financial statements, budget, taxation and setting up sales subsidiaries in the USA, UK, Germany, Italy, Hong-Kong and China).

Christophe Sibillin has also brought to MEDTECH his successful experience in legal matters, information management systems, setting up a European Recovery Program, internal auditing and fundraising.

"Christophe Sibillin seemed like a natural candidate for the position of CFO. His successful experience in similar areas of activity and especially in companies with ambitions like ours have made a real difference" said Bertin Nahum, CEO and Founder of MEDTECH. "Since its IPO, MEDTECH has been following a strategy to conquer markets and expand on an international scale. Strengthening its management team by recruiting a Director of Administration and Finance is the first stage in this expansion strategy."

"MEDTECH has made very impressive progress considering the means available. I am very happy to be able to contribute to this adventure with the aim of creating value in a market where the comparables are very encouraging" said Christophe Sibillin.

**Press Release**

**About MEDTECH**

MEDTECH, founded in 2002 by Bertin NAHUM and based near Montpellier, is the European specialist in design, development and marketing of innovative robotic-assistive devices for medico-surgical interventions, thus contributing to the implementation of safer, more efficient, less invasive treatment.

In 2006, MEDTECH sold the patent portfolio for its first robot, BRIGIT™, designed for knee surgery, to Zimmer Inc. (NYSE : ZMH).

In 2007, MEDTECH developed ROSA™ Brain, an innovative robotic device devoted to brain surgery, which has now been officially approved in Europe, the United States and Canada.

With the launch of its latest robot, ROSA™ Spine, MEDTECH has broadened its field of intervention with this new equipment for spinal surgery.

In 2013, MEDTECH received the «European Company of the Year » award in the «robotics neurosurgery » category from Frost & Sullivan.
