Montpellier, August 7th, 2014

MEDTECH signs a distribution agreement for ROSA™ surgical robots in South Korea.

MEDTECH (Euronext FR0010892950-ROSA), a company that specializes in the design, development and marketing of surgical robots, has announced a distribution agreement with Soelim International Inc. in South Korea.

Soelim is a key health care company in South Korea and markets innovative medical devices, particularly in the expanding field of mini-invasive surgery. Soelim guarantees its partners perfect knowledge of the market as well as full control of all aspects of the value chain (marketing, distribution, regulations, etc...). This position has enabled Soelim to become the main partner of leading companies operating in the field of medical devices.

Soelim will be in charge of marketing the range of surgical robots developed by Medtech: ROSA™ Brain, designed for minimally-invasive brain surgery, and ROSA™ Spine, a brand new generation devoted to spinal surgery.

“We are pleased to announce this new commercial partnership which will expand our international presence. South Korea has a leading role in the adoption and diffusion of innovative technologies throughout Asia. Furthermore, Korea enjoys a worldwide influence that will contribute to the growing awareness and spread of our technology” says Bertin NAHUM, CEO and Founder of Medtech.

Since its commercial launch, ROSA™ Brain surgical robot has already been marketed in Europe (France, Germany, Spain and Italy), North America (United States and Canada), Russia, Saudi Arabia, China and Israel.

About MEDTECH

Founded in 2002 by Bertin NAHUM and based near Montpellier, MEDTECH is a European specialist in the design, development and marketing of innovative robotic appliances to assist surgeons during their medicosurgical interventions, thus contributing to safer, more efficient, less-invasive treatment.

In 2007, MEDTECH developed ROSA™, a state-of-the-art technological device devoted to brain surgery procedures. ROSA™ has been approved in Europe, the United States and Canada.

In 2013 Medtech received the « European Company of the Year Award” in the “robotic neurosurgery” category from Frost & Sullivan.

In July 2014, MEDTECH obtained the CE marking for its new product ROSA™ Spine, a robotic- assistive device for minimally invasive surgery of the spine.
