

Press Release

Official commercial launch of ROSA™ Spine at Eurospine, October 1- 3, Lyon, France

Montpellier, France, September 25, 2014 – MEDTECH (Euronext, FR0010892950 – ROSA), a company specializing in the design, development and marketing of innovative surgical robots, will officially launch its new robotic assistant for mini-invasive spine surgery, ROSA™ Spine, at the European Spine Society's annual Eurospine congress, held in Lyon on October 1 - 3.

The Eurospine annual congress is a major European event in spine surgery and attracts over 2000 neurosurgeons and spine specialists. Demonstrations of ROSA™ Spine will be given on Medtech's booth all 3 days of the congress.

At 5.30 p.m. on October 2, Medtech will also organise a workshop. The theme will be «*Robotic assistance & image-guided surgery : Early experience of spine application* ». This workshop will be chaired by Dr. John Duff, neurosurgeon at Vaudois University Hospital in Lausanne (Switzerland).

Last July, Medtech received the CE marking for ROSA™ Spine allowing the robot to be marketed in Europe. Rosa™ Spine's prime application will be pedicle screw fixation, a spinal stabilization procedure performed over one million times annually worldwide.

Bertin Nahum, President and Founder of Medtech said : «*ROSA™ Spine's commercial launch is part of our development strategy. The Eurospine annual congress is a major event in Europe and a unique occasion to present ROSA™ Spine to a wide audience of international surgeons* ».

About MEDTECH

MEDTECH, founded in 2002 by Bertin NAHUM and based near Montpellier, is the European specialist in design, development and marketing of innovative robotic-assistive devices for medico-surgical interventions, thus contributing to the implementation of safer, more efficient, less invasive treatment.

In 2006, MEDTECH sold the patent portfolio for its first robot, BRIGIT™, designed for knee surgery, to Zimmer Inc. (NYSE : ZMH).

In 2007, MEDTECH developed ROSA™ Brain, a state-of-the-art robotic device devoted to brain surgery, which has now been officially approved in Europe, the United States and Canada.

With the launch of its latest robot, ROSA™ Spine, MEDTECH has broadened its field of intervention with this new equipment for spinal surgery.

In 2013, MEDTECH received the «European Company of the Year » award in the “robotics neurosurgery » category from Frost & Sullivan.
