

Press Release

## DYNAMIC ACTIVITY ON THE AMERICAN MARKET: SALE OF TWO MORE DEVICES

Montpellier, France, February 9, 2015 – MEDTECH (Euronext, FR0010892950 – ROSA), a company specializing in the design, development and marketing of innovative surgical robots, is proud to announce the sale of its ROSA™ robot to two more American hospitals ; Texas Children’s Hospital (Houston, TX) and Presbyterian Hospital (New York City, NY).

Texas Children’s Hospital is one of the largest pediatric hospitals in the USA with over 1,000 pediatric neurosurgery procedures per year. This establishment is one of the country’s most experienced centers for the treatment of neurological pathologies in children.

New York - Presbyterian Hospital / Columbia University Medical Center is a reference center in the United States in the fields of research, teaching and the treatment of epilepsy in adults and children. The pediatric unit offers one of the most active programs on the East Coast with a group of experts specialized in the treatment of this pathology in children.

Bertin Nahum, Medtech’s CEO and Founder stated: *“Medtech is actively pursuing its commercial deployment by strengthening its sales forces in North America, true to its development plan. At the beginning of this New Year, 2015, these two sales demonstrate an acceleration in the group’s commercial activity in the United States”.*

### About MEDTECH

Founded in 2002 by Bertin NAHUM and based near Montpellier, MEDTECH is a European specialist in the design, development and marketing of innovative robotic appliances to assist surgeons during their medico-surgical interventions, thus contributing to the implementation of safer, more efficient, less-invasive treatment.

In 2007, MEDTECH developed ROSA™, an innovative technological device devoted to brain surgery procedures. ROSA™ has been approved in Europe, the United States and Canada.

In 2013 Medtech received the « European Company of the Year Award” in the “robotic neurosurgery” category from Frost & Sullivan.

In July 2014, MEDTECH obtained the CE marking for its new product ROSA™ Spine, a robotic- assistive device for minimally invasive surgery of the spine.

In October 2014, MEDTECH won the « Révélation » prize in the Mediterranean Deloitte Technology Fast 50 Awards.
