

Press Release

MEDTECH ANNOUNCES SALE OF FIVE ROSA™ ROBOTS IN THE USA DURING FISCAL THIRD QUARTER 2015

Montpellier, France, April 1, 2015 – MEDTECH (Euronext, FR0010892950 – ROSA), a company specializing in the design, development and marketing of innovative surgical robots, is pleased to announce the sale of five ROSA™ robots in the U.S. during the fiscal third quarter of 2015 (quarterly period ended March 31, 2015).

These five ROSA™ robots were sold to the following care centers:

- Texas Children's Hospital (Houston, Texas), one of the largest hospitals in the U.S. with more than 1,000 pediatric neurosurgical operations per year. Texas Children's is one of the most experienced centers in the country for the treatment of neurological disorders in children.
- New York Presbyterian Hospital (New York, N.Y.), known for its research, education and treatment of epilepsy in adults and children. The pediatric department offers one of the most active programs on the East Coast of the U.S. with a dedicated group of specialists who treat children with epilepsy.
- Children's Hospital of Orange County (Orange, Calif.), which is featured on the list of the best pediatric hospitals in the U.S. according to the US News & World Report. This center offers an innovative new approach to the treatment of pediatric epilepsy.
- Penn State Hershey Children's Hospital (Hershey, Penn.), a center that specializes in the treatment of pediatric neurological disorders. Robert E. Harbaugh, M.D., F.A.C.S., F.A.H.A., who heads the neurosurgery department and is Director of the Institute of Neurosciences at Penn State Hershey Children's Hospital, is a thought leader in neurology. Dr. Harbaugh is also President-Elect of the Society of Neurological Surgeons (SNS), the world's oldest neurosurgical professional organization.
- Spectrum Health Medical Center (Grand Rapids, Mich.), is renowned for neurosurgery and the treatment of brain and spine disorders. In a study by Truven Health Analytics it was classified among the top 15 health centers in the nation.

Bertin Nahum, CEO and Founder of Medtech said: *"These five key sales to prestigious American hospitals confirm the increasing appetite for the ROSA™ robot and continue the commercial momentum Medtech has seen to date in North America."*

Medtech's financial results for the fiscal third quarter of 2015 will be published pre-market on April 16, 2015.

About MEDTECH

Founded in 2002 by Bertin NAHUM and based near Montpellier, MEDTECH is a European specialist in the design, development and marketing of innovative robotic appliances to assist surgeons during their medico-surgical interventions, thus contributing to the implementation of safer, more efficient, less-invasive treatment.

In 2007, MEDTECH developed ROSA™, an innovative technological device devoted to brain surgery procedures. ROSA™ has been approved in Europe, the United States and Canada.

In 2013 Medtech received the « European Company of the Year Award » in the “robotic neurosurgery” category from Frost & Sullivan.

In July 2014, MEDTECH obtained the CE marking for its new product ROSA™ Spine, a robotic- assistive device for minimally invasive surgery of the spine.

In October 2014, MEDTECH won the « Révélation » prize in the Mediterranean Deloitte Technology Fast 50 Awards.
