MEDTECH Expands Presence in Asia with the Sale of Three ROSA™ Surgical Robots

Montpellier, France, May 4, 2015 – MEDTECH (Euronext, FR0010892950 – ROSA), a company specializing in the design, development and marketing of innovative surgical robots, today announced the sale of three ROSA™ surgical robots in Asia during April, marking an increased adoption in the Asian market.

Bertin Nahum, CEO and Founder of Medtech said: *“The sale of three ROSA™ surgical robots in the past month continues to demonstrate the growing demand for precision surgical robotics both in the region and globally. Our consistent sales performance in the region highlights the success of Medtech’s commercial activities in this promising Asian market.”*

Two of the three ROSA™ systems were sold in China, a key driver in Asia and one of Medtech’s target markets for growth. With the sale of these two units, Medtech now has seven ROSA™ robots in China.

The third ROSA™ unit was sold in India, the second most populated country in the world with 1.27 billion inhabitants. The robot was purchased by the All India Institute of Medical Sciences (AIIMS) hospital in New Delhi. AIIMS hospital is a leading national institute for medical education and its center for neurosurgery treats more than 3,000 neurosurgery patients and 1,500 trauma patients each year.

About MEDTECH

Founded in 2002 by Bertin NAHUM and based near Montpellier, MEDTECH is a European specialist in the design, development and marketing of innovative robotic appliances to assist surgeons during their medico-surgical interventions, thus contributing to the implementation of safer, more efficient, less-invasive treatment.

In 2007, MEDTECH developed ROSA™, an innovative technological device devoted to brain surgery procedures. ROSA™ has been approved in Europe, the United States and Canada.

In 2013 Medtech received the « European Company of the Year Award” in the “robotic neurosurgery” category from Frost & Sullivan.

In July 2014, MEDTECH obtained the CE marking for its new product ROSA™ Spine, a robotic- assistive device for minimally invasive surgery of the spine.

In October 2014, MEDTECH won the « Révélation » prize in the Mediterranean Deloitte Technology Fast 50 Awards.
