## **MEDTECH'S ROSA ROBOTIC SURGERY SYSTEM TO BE FEATURED AT 3 MAJOR MEDICAL CONGRESSES**

Montpellier, France, June 2, 2015 – MEDTECH (Euronext, FR0010892950 – ROSA), a company specializing in the design, development and marketing of innovative surgical robots, announced today that it is participating at three major medical congresses in June. These congresses will allow the Company to highlight its ROSA™ robotic surgery system for minimally invasive spine and cranial surgery procedures. The congresses include:

### **The SFCR (French Society of Spine Surgery) annual congress**

This event, taking place from June 4 to 6 in Marseille, gathers together France's entire community of spine surgery specialists. At this event, Medtech will be organizing ROSA™ demonstrations at Booth N°15. During the congress (at 12.15 p.m. local time on June 5), Dr. Michel LEFRANC, neurosurgeon at Amiens-Picardy University Hospital, will present the clinical results of a series of patients having undergone minimally invasive pedicle screw procedures with the ROSA™ robot.

Medtech will also be present at the **DGNC's** annual congress (German Society of Neurosurgery), which will take place from June 7 to 10 in Karlsruhe, Germany. The Company will highlight the ROSA™ system at Booth N° E-34. Germany is the leading European market for neurosurgery, with more than 1,400 hospital centers treating pathologies of the central nervous system (brain and spine).

**The International Epilepsy Colloquium**, held in Grenoble from June 14 to 17, will gather the world's leading care centers for epilepsy, including Grenoble University Hospital (France), UCL's department of Epilepsy in London (England) and Case Western Reserve University Hospital in Cleveland, Ohio (United States). Leading experts in the field of epilepsy treatment are expected to attend the meeting, providing the Company the opportunity to highlight the advantages of using ROSA™ for epilepsy surgery at Booth N° 6.

### About MEDTECH

Founded in 2002 by Bertin NAHUM and based near Montpellier, MEDTECH is a European specialist in the design, development and marketing of innovative robotic appliances to assist surgeons during their medico-surgical interventions, thus contributing to the implementation of safer, more efficient, less-invasive treatment.

In 2007, MEDTECH developed ROSA™, an innovative technological device devoted to brain surgery procedures. ROSA™ has been approved in Europe, the United States and Canada.

In 2013 Medtech received the « European Company of the Year Award » in the “robotic neurosurgery” category from Frost & Sullivan.

In July 2014, MEDTECH obtained the CE marking for its new product ROSA™ Spine, a robotic- assistive device for minimally invasive surgery of the spine.

In October 2014, MEDTECH won the « Révélation » prize in the Mediterranean Deloitte Technology Fast 50 Awards.
