## **Medtech Announces the Sale of Three ROSA Robotic Surgery Systems**

***Includes one sale to a hospital group in Germany and a double sale to a U.S. hospital***

Montpellier, France, June 30, 2015 – MEDTECH (Euronext, FR0010892950 – ROSA), a company specialized in designing, developing and marketing innovative surgical assistance robots, today announced the sale of three ROSA™ robotic surgery systems: one to a hospital group in Germany and two systems to a hospital the United States.

The first sale was to Krankenhaus Merheim (Cologne, Germany), which is a member of the Kliniken der Stadt Köln group, the largest hospital group in Cologne servicing 60,000 patients a year. The neurosurgery department at Krankenhaus Merheim purchased the ROSA™ system to expand its offering of advanced treatment options, including for the treatment of Parkinson's disease.

Miami Valley Hospital (Dayton, Ohio) purchased two ROSA™ systems for its Neuroscience Institute, which offers advanced diagnosis and treatment for complex neurological disorders. The Neuroscience Institute at Miami Valley Hospital has received several awards for the excellence of its care in neurology and neurosurgery, including the 2015 Neurosciences Excellence Award and the 2015 Neurosurgery Excellence Award; and it is ranked among the top 10 hospitals in the United States for its neurosurgery department (classification according to *Healthcare*).

*"We are pleased to achieve this sale in the number one market for neurosurgery in Europe only a few months after the opening of our subsidiary in Germany. This sale represents an important milestone as we expand the adoption of the ROSA™ robotic surgery system in Europe,"* said Bertin Nahum, President and Founder of Medtech. *"In addition, the sale of two systems to Miami Valley Hospital demonstrates the strong interest and momentum of the ROSA™ system in the U.S. at leading neurology centers."*

### About MEDTECH

Founded in 2002 by Bertin NAHUM and based near Montpellier, MEDTECH is a European specialist in the design, development and marketing of innovative robotic appliances to assist surgeons during their medico-surgical interventions, thus contributing to the implementation of safer, more efficient, less-invasive treatment.

In 2007, MEDTECH developed ROSA™, an innovative technological device devoted to brain surgery procedures. ROSA™ has been approved in Europe, the United States and Canada.

In 2013 Medtech received the « European Company of the Year Award » in the “robotic neurosurgery” category from Frost & Sullivan.

In July 2014, MEDTECH obtained the CE marking for its new product ROSA™ Spine, a robotic- assistive device for minimally invasive surgery of the spine.

In October 2014, MEDTECH won the « Révélation » prize in the Mediterranean Deloitte Technology Fast 50 Awards.
