

## MEDTECH PRESENT AT THE FRENCH SOCIETY OF NEUROSURGERY CONGRESS

Montpellier, France, May 20, 2014 – MEDTECH (Euronext, FR0010892950 - ROSA), a company specialized in designing, developing and marketing innovative surgical robots, has announced its intention to participate at the French Society of Neurosurgery congress from May 21<sup>st</sup>-23<sup>rd</sup>.

This congress remains the main event of the neurosurgery community thanks to a top-level program.

The latest evolutions in our ROSA™ technological platform, designed for minimally invasive surgery offering unrivalled precision and genuine ease of use, will be presented on booth n°38. A completely functional robot will be on display there.

### Neurosurgeons assisted by ROSA™ will present their clinical results.

Prof. Chabardes from Grenoble university hospital will preside a session entitled « Deep brain stimulation electrode implantation: MRI or intraoperative robot-assisted guidance? » and Dr Lefranc from Amiens university hospital will present a session entitled « Variability and precision of stereotactic frames and robots ».

### About MEDTECH

MEDTECH, founded in 2002 by Bertin NAHUM and based near Montpellier, is the European specialist in design, development and marketing of innovative robotic-assistive devices for medico-surgical interventions, thus contributing to the implementation of safer, more efficient, less invasive treatment.

In 2006, MEDTECH sold the patent portfolio for its first robot, BRIGIT™, designed for knee surgery, to Zimmer Inc. (NYSE : ZMH).

In 2007, MEDTECH developed ROSA™ Brain, an innovative robotic device devoted to brain surgery, which has now been officially approved in Europe, the United States and Canada.

With the launch of its latest robot, ROSA™ Spine, MEDTECH has broadened its field of intervention with this new equipment for spinal surgery.

In 2013, MEDTECH received the «European Company of the Year » award in the «robotics neurosurgery » category from Frost & Sullivan.
